

## IATTC POSSIBLE INFRACTIONS IDENTIFIED FOR BELIZE IN 2020

9<sup>TH</sup> JUNE 2022

### Res. C-19-08 – Observers on Long Line Vessels

In 2020, there were no observer deployments conducted due to the ongoing economic effects and access restrictions caused by the Covid-19 Pandemic. The vessel maintained on board a catch logbook utilized by the vessel's master and vetted by the administration along with landing reports. No operational data could be provided to the IATTC for this respective year.
